

Graduate student presented a research article by video recording at the international conference

According to the COVID-19 pandemic, the 11th National & International Conference -- Global Goal, Local Action: Looking Back and Moving Forward, managed by the Graduate School of Suan Sunandha Rajabhat University allowed the researchers to present their articles by using video recording. Miss Nutcharun Yanakit, one of graduate students studying in Mathematics Education Program at SSRUIC, presented her research article entitled 'A Synthesis Research on Inquiry-Based Learning for Mathematical Processes and Skills'. This article, as a part of the graduation requirement, is published in the proceedings approved by peer reviewers.
